# Car Owners in North Tipperary in 1906

---

Below are listed the registered owners of motor-cars in North Tipperary in 1906. Although the list runs from F1 1 to F1 23, there were in fact only 22 car owners in the North Riding 88 years ago, since no Irish county council gave the number 13 for a car in those superstitious days!

Readers in South Tipperary may be interested to know that their half of the county had no less than 53 car owners the same year. A corresponding list for the South Riding will be published in the 1995 *Tipperary Historical Journal*. The source of this information, for which the editor is indebted to Dr. Denis G. Marnane, will be withheld until then — just in any enterprising or inquisitive journalist or columnist may be tempted!

Readers are invited to contact the editor with any biographical or other information relating to any of those listed below.
