Wishes you
to send us about 150 of your
young Conifers (if you dont consider
it late) - must be small & delivered
here day after morrow - also want
six good garden spades at same
time - He complains bitterly about
your slow habits -

Now to prevent any unnecessary delay
if you have not got the plants handy
dont mind them at all for this season
I would deal largely in the Douglas
fir if you had it - Vettingonia

Dear Sir

I want to plant a belt
near the house in a very ex-
posed situation. Consequently I will
have none of the young trees
more than four feet high
as the wind is desperate.
I will want of larch & larch
25 each - of spruce 25 (3ft)
- of silver fir 6 (4ft) - of Austrian
pine 6 (4ft) and a dozen
of other evergreen trees which
will grow to a great

height to shelter the house
which will be ornamental
and which I leave to your
own selection. I also want
two Irish yews (4ft) the
land is a heavy wet
clay land & has been well
raked to a depth of
three feet. Perhaps some
day next week you
might have an opportunity
of sending them into
Kerragh and if so I
shall be thankful if
you let me know

when & where I may
send for them

I remain

Dear Sir

The 12 trees I mentioned I
intended to remain. Instead
of the 12 I will take 6
fancy trees as they will be
near the house namely
4 of Wellingtonia gigantea &
2 of Cedrus Atlantica = 2
Let these 6 do for the 12
in the first order as
they will supply the whole
belt with a single row

Be good enough to send
them to Mr Hartys
and let me know
the day

Yours faithfully
Egan

Mr Hodgkins

I am very much obliged
for the plants you sent
me. The Phlox's I hope will
set on now. The first
died. The tuberous rooted
Begonias, did very well
but to furnish a bed of
them I shall want 3
or 4 ^{more} good strong well
furnished plants. Could

Should I send them
you let me have them to me, I should feel
